POWERING BETTER BROODING

The Heat That Drives Better Brooding

Importance of Proper Heating

- Maintains optimal brooding temperature.
- Ensures a comfortable start for newly placed chicks.
- Encourages early feed and water intake.
- Minimises cold stress and energy loss.
- Promotes uniform flock distribution.
- Supports healthy growth and development.
- Helps reduce chilling-related losses.

Proper heating helps chicks maintain body temperature, encourages early feed and water intake, reduces cold stress and creates the right environment for healthy growth and development.

THE TAKEAWAY: The right warmth from day 1 - Lays the foundation for a stronger, more uniform flock.

HEATING PROBLEM	POSSIBLE EFFECT ON BIRDS
Insufficient heat	Chilling, huddling and reduced activity
Uneven heat distribution	Uneven flock development
Excessive heat	Panting, dehydration and discomfort
Temperature Fluctuations	Stress and inconsistent feed intake
Cold Litter	Difficulty maintaining body temperature

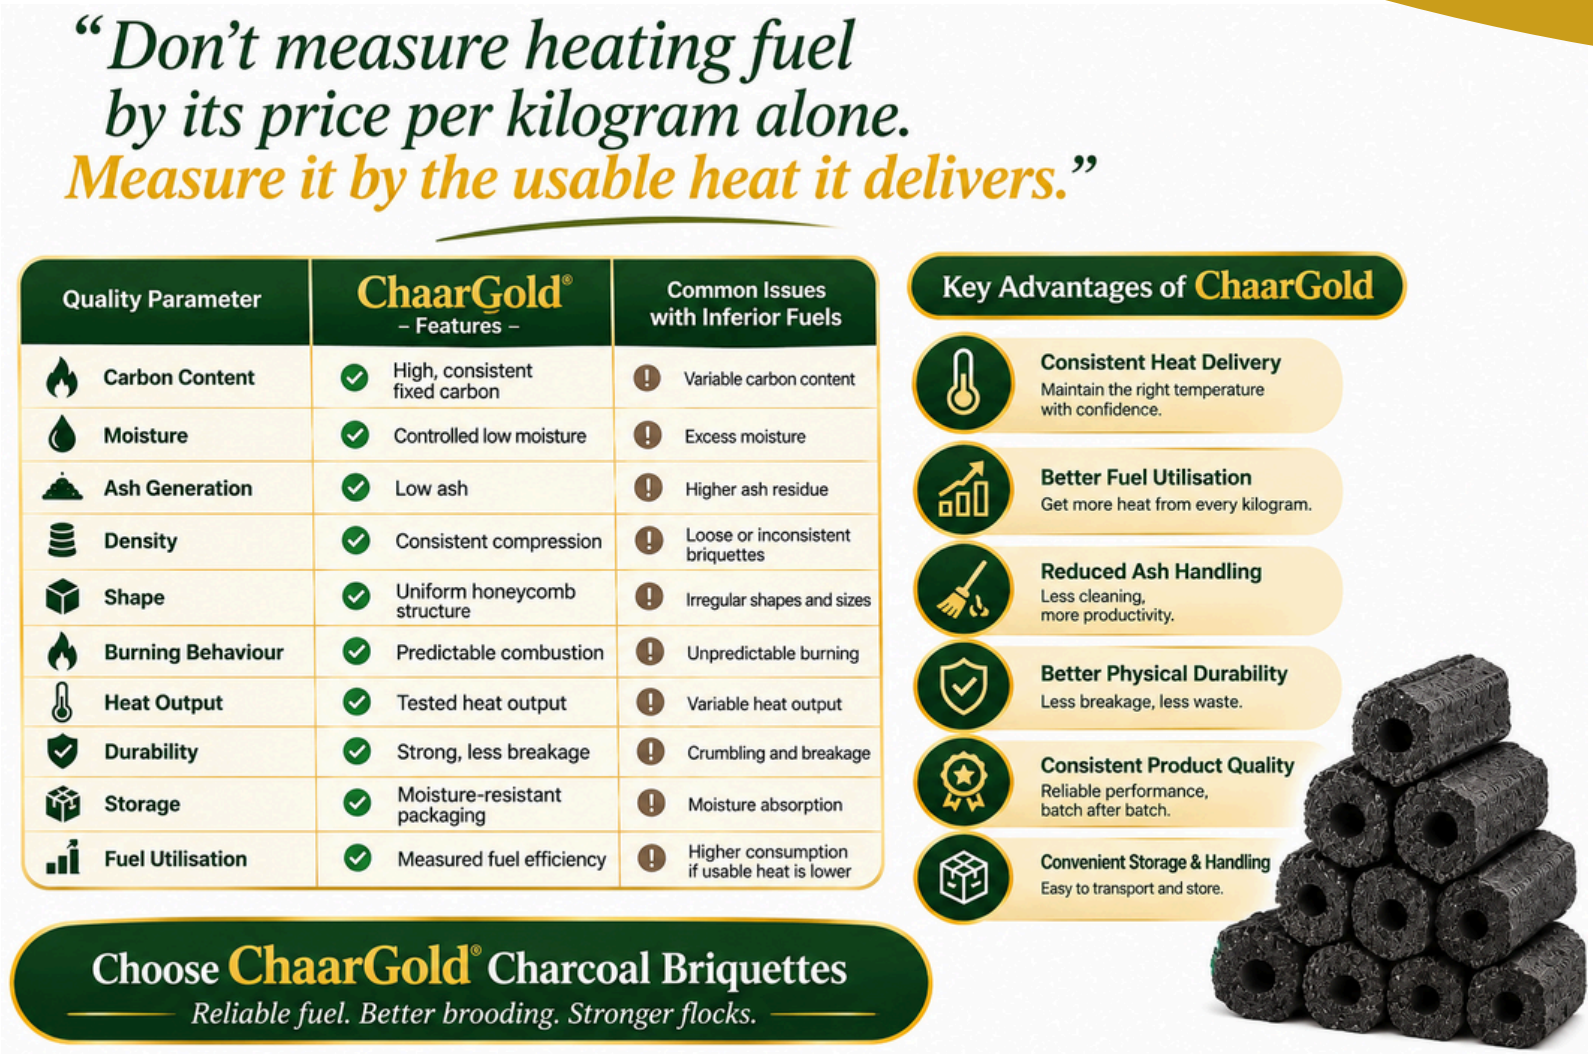

WHAT TO LOOK FOR IN A POULTRY HEATING SOLUTION

- ✓ **Consistent Heat Output**
- ✓ **Longer Burning Performance**
- ✓ **Safe & Suitable Operation**
- ✓ **Greater Heating Value**
- ✓ **Easy Handling & Storage**

THE QUALITY OF EARLY BROODING CONDITIONS CAN INFLUENCE THE PERFORMANCE OF THE ENTIRE PRODUCTION CYCLE

QUALITY MEETS VALUE

At Chaargold, we believe that superior quality should come at a competitive and sensible price. Our approach is built around delivering the right balance between product quality, performance and affordability, ensuring that customers receive genuine value with every purchase. Through efficient manufacturing, careful resource utilisation and a commitment to consistency, we strive to make quality charcoal briquettes accessible without compromising on the standards that matter.

With Chaargold, quality and value go hand in hand —
Because the right product should make both commercial and practical sense.

The ChaarGold Advantage

Quality-Focused Manufacturing
A strong emphasis on production standards and product quality at every stage of manufacturing.

Uniform Shape & Structure
Consistent product dimensions and formation to support convenient handling and application.

Reliable Fuel Performance
Designed for dependable heat generation in suitable cooking, heating and industrial applications.

Convenient Storage & Handling
Compact, easy-to-stack briquettes that simplify packaging, transportation and storage.

Versatile Applications
Suitable for a variety of requirements, including hospitality, food service, commercial heating and selected industrial applications.

Commitment to Consistency
A focus on maintaining product quality and meeting customer specifications across supply requirements.

CHAARGOLD PRODUCT PORTFOLIO

- **ChaarGold™ Lump Charcoal** - Prosopis Juliflora, Coconut Shell, Bamboo & others
- **ChaarGold™ Briquettes-** Hexagonal, Pillow and Honeycomb
- **BiochaarGold™ -** Our Premium Biochar Brand
- **GoldFlame™ -** Our Signature Charcoal Briquette Stoves
- **Pyrolysis Retort Units** - Turnkey Biochar and Charcoal Manufacturing Solutions
- **Value-Added Byproducts -** Wood Vinegar, Wood Tar, Liquid Smoke & others
