APPLICATIONS

At CHAARGOLD, we believe that today's biomass waste is tomorrow's sustainable resource. Through advanced Pyrolysis Technology and innovative manufacturing processes, we convert agricultural and forestry biomass into premium carbon products that create value for farmers, industries, and the environment.

ENGINEERING SUSTAINABLE CARBON SOLUTIONS

PREM RAJ - Founder & Chief Technology Officer

He brings over 15 years of experience in sustainable energy, biomass conversion, and carbon solutions. An engineer, innovator, patent holder, and passionate agriculturist, he combines technical expertise with practical industry knowledge to develop advanced pyrolysis technologies and high-performance carbon products.
